Colorado Council on Rocky Flats

(Formerly the Rocky Flats Environmental Monitoring Council)

Rep. Samuel Williams
Chairman

Ginger Swartz
Executive Director

Over the past two months, the Council has been in the process of clarifying its approach to dissemination of Rocky Flats information to the public. As a result of this effort, the Council has made the decision to:

1. Sponsor quarterly public information meetings (rather than monthly); and
2. to begin to coordinate public meetings with those of the Rocky Flats Local Impacts Initiative (LII). As a result of discussions with LII staff, a cooperative effort between the two groups related to Rocky Flats public participation opportunities is in the works.
